## CHILD, YOUTH & FAMILY SERVICES

Child, youth and family behavioral and physical health services are designed to provide treatment, prevention and educational services for children, adolescents and young adults. Services include case management, specialty groups, family education and individualized therapy developed to help the child/adolescent successfully function in home and school settings.

Serious Emotional Disturbance (SED) eligibility is determined by assessing the acuity of symptoms, duration of symptoms and degree of functional impairment.

- Triage – intake, assessment & screening
- Psychiatric evaluations, medication management, community support services, treatment planning, crisis intervention, individual group & family therapy
- Wraparound – team-driven process for persons 0-21 involving the family, child and natural supports, agencies & community services

*Services continued on other side*
